Color creates identity, it is a vehicle of emotion and an alphabet of beauty. The concept of luxury proposed by Capoforte starts from the design of its boats and reaches the colors, materializing the intimate thoughts of each owner. For this reason, Capoforte offers ample possibilities for chromatic customization of its models, thanks to a rich palette of shades with a contemporary taste, to choose from and through which to make each boat unique and precious. Because the energy of an adventure at sea is not a black and white photo.
