# FX240

PERFECT BALANCE

The FX Series mid-sized motorboat features an outboard propulsion and a very performing hull, suitable for heavy seas. FX240 is comparable to bigger boats in terms of details, equipment and quality of materials. The restrained size does not compromise the gracefulness of lines, neither the richness at disposal of hosts on board: both in the "Leisure" configuration, both with the "Fishing" adaptation, FX240 offers elegance, comfort and versatility, thanks to a bow area which can be fitted with a comfortable sofa leaning onto the bulwark, or left empty for real fishermen. As for FX270, the console and pilot cockpit are finished perfectly even in smallest details, in order to be fully integrated and usable. Moreover, also in this case the upper deck superstructures are used to gain a small changing room in the lower deck, that can be equipped with a wc. For FX240 "Fishing", an elegant canopy is also available: it features a polished steel tubular structure and rod holders.

## CAPOFORTE VIBES

Color creates identity, it is a vehicle of emotion and an alphabet of beauty. The concept of luxury proposed by Capoforte starts from the design of its boats and reaches the colors, materializing the intimate thoughts of each owner. For this reason, Capoforte offers ample possibilities for chromatic customization of its models, thanks to a rich palette of shades with a contemporary taste, to choose from and through which to make each boat unique and precious. Because the energy of an adventure at sea is not a black and white photo.
