

CAPOFORTE

SX280i

SX280i

A NEW CLASSIC

Thanks to a wide aft platform, the biggest in its category, SX280i dictates its rules on comfort and layout organization, designed in all details. Luxury and practicality blend in this small masterpiece of style, dressed with elegance and innovative solutions by Capoforte. This is a boat for whoever is looking for a distinctive and unique vessel, to enjoy boating with family and friends. It is studied to enhance contact with the sea and conviviality, and to become a real living room on the sea. The wide cockpit hosts several people comfortably and safely. The high-end level of finishing makes host and guests proud to be part of Capoforte world.

Color creates identity, it is a vehicle of emotion and an alphabet of beauty. The concept of luxury proposed by Capoforte starts from the design of its boats and reaches the colors, materializing the intimate thoughts of each owner. For this reason, Capoforte offers ample possibilities for chromatic customization of its models, thanks to a rich palette of shades with a contemporary taste, to choose from and through which to make each boat unique and precious. Because the energy of an adventure at sea is not a black and white photo.
